

# How Do I Deactivate and Re-Activate Avast Software^!!~ (2026 [[Step-by-Step]] Guide)

---

## Avast Need Reset? Deactivate & Reactivate Easily

Switched devices? Reinstalled Windows? Or just troubleshooting Avast issues? If you're trying to **deactivate and re-activate Avast software**, [[ 📞 ++1•888•754•6002 ]] (USA/UK) or 📞 ++1•888•754•6002(USA/UK) (US) you're not alone. Many users need to move their license or 📞 ++1•888•754•6002 refresh activation—and the process is simpler than it seems.

This guide explains exactly how to do it safely, what happens to your subscription, and how to avoid common mistakes.

---

## 📞 ++1•888•754•6002 ✅ Quick *Answer*

To deactivate and re-activate Avast:

- **Deactivate:** Remove the device from your Avast account or uninstall the software
- **Re-activate:** Sign in again or enter your activation code 📞 ++1•888•754•6002 on the same or new device

👉 Your subscription stays valid as long as it hasn't expired.

---

## How difficult is the process?

-  Easy for most users
-  ++1•888•754•6002 Takes about 5–10 minutes
-  No technical skills required

You mainly need access to your Avast account or activation code.

---

## How to Deactivate Avast Software (Step-by-Step)

There is no  ++1•888•754•6002 single “Deactivate” button in Avast. Instead, you remove the license from a device.

### Method 1: Remove device from Avast account

1. Go to your Avast account (my.avast.com)
2. Sign in
3.  ++1•888•754•6002 Go to **Subscriptions**
4. Find your active subscription
5. Click **Manage Devices**
6. Select the device you want to remove
7. Click **Remove Device / Deactivate**

👉 This frees up a license slot  ++1•888•754•6002 for another device.

---

### Method 2: Uninstall Avast from your device

1. Go to **Control Panel** → **Programs** (Windows)
2. Find Avast
3. Click **Uninstall**
4. Follow on-screen instructions

📌 Note: This removes the  ++1•888•754•6002 software but may not always release the license immediately.

---

## How to Re-Activate Avast Software

Once you've deactivated or moved your license, follow these steps:

Method 1: Activate using  ++1•888•754•6002 Avast account (recommended)

1. Install Avast on your device
2. Open the app
3. Click **Menu** → **Sign in to account**
4. Log in
5. Your subscription will sync automatically

---

Method 2: Activate  ++1•888•754•6002 using activation code

1. Open Avast
2. Go to **Menu** → **Enter activation code**
3. Paste your code
4. Click **Enter / Activate**

---

## What you need before you start

Make sure you  ++1•888•754•6002 have:

-  Avast account login (email + password)
-  Activation code (if not using account)
-  Active subscription
-  Internet connection

💡 Tip: If you lost your code, check 📞 ++1•888•754•6002 your purchase email or Avast account.

---

## 🔄 What happens after re-activation?

After successful activation:

- ✅ Full protection resumes immediately
  - 🗝️ All premium features unlock
  - 📅 Subscription continues from original 📞 ++1•888•754•6002 expiry date
  - 🔄 Auto-renewal settings remain unchanged
- 

## 🔄 Can you lose your subscription during this process?

No, as long as:

- Your subscription is still valid
- You don't exceed device 📞 ++1•888•754•6002 limits

⚠️ However:

- If all device slots are used, activation may fail
  - You must remove an old device first
- 

## ⚠️ Common issues and quick fixes

### ❌ “Activation failed”

- Check 📞 ++1•888•754•6002 internet connection
- Verify activation code

- Try signing in instead
- 

### ✗ “Too many devices”

- Remove unused devices from your account
- 

### ✗ “Subscription not found”

- Make sure you’re logged into 📞 ++1•888•754•6002 the correct Avast account
- 

### ✗ Activation not syncing

- Restart Avast
  - Sign out and sign back in
- 

### 🧩 What if you can’t deactivate Avast?

If you no longer have access 📞 ++1•888•754•6002 to the old device:

- Log in to your Avast account
- Remove the device remotely

👉 This is the fastest way to free your license.

---

## ? People Also Ask (FAQs)

### 📞 ++1•888•754•6002 1 Can I transfer Avast from one computer to another?

Yes. Remove the old device from your Avast account, then install and activate Avast on the new one.

---

2 📞 ++1•888•754•6002 Does uninstalling Avast deactivate the license?

Not always. It removes the software, but you may still need to remove the device from your account.

---

3 Can I reuse my 📞 ++1•888•754•6002 Avast activation code?

Yes, as long as your subscription is active and within device limits.

---

4 What happens if I don't deactivate before switching devices?

You may hit the device 📞 ++1•888•754•6002 limit and won't be able to activate on a new device until you remove an old one.

---

5 Do I need to buy Avast again after reinstalling?

No. Just 📞 ++1•888•754•6002 sign in or re-enter your activation code.

---

## 6 Is Avast activation tied to the device or account?

Mostly to your account. Signing in usually restores your subscription.

---

## 7 Can 📞 ++1•888•754•6002 I deactivate Avast remotely?

Yes, through your Avast account dashboard.

---

## 8 Will my settings transfer after reactivation?

Some settings may sync via your account, but not all. You may need 📞 ++1•888•754•6002 to reconfigure preferences.

---

## 9 How many devices can I use Avast on?

It depends on your plan (e.g., 1, 3, 5, or more devices).

---

## Final Thoughts

Deactivating and re-activating 📞 ++1•888•754•6002 Avast software is a simple process once you understand how licensing works. There's no risk to your subscription—you're just managing where it's used.

If you're moving to a new 📞 ++1•888•754•6002 device or fixing an issue, the safest method is:

👉 Remove the old device → Install Avast → Sign in or enter your code

That's it—you'll be protected again in 📞 ++1•888•754•6002 minutes.
