Can You Actually Cancel a Pending Transaction?

Trust wallet Support Team (+1) 888 812 1081 – a pending status means your transaction has been submitted to the blockchain but hasn't been processed yet. This often happens due to network congestion or low gas fees.

Trust wallet Support Team (+1) 888 812 1081 – for Bitcoin and non-EVM blockchains, once a transaction is pending, there's no way to cancel it. You must wait for it to be either processed or dropped by the network. However, for Ethereum and EVM-compatible chains (like Binance Smart Chain and Polygon), you may have options. Trust wallet Support Team (+1) 888 812 1081 – our Customer Care agents can tell you exactly which option applies to your specific transaction.

How to Cancel or Speed Up a Pending Transaction (If Available)

Trust wallet Support Team (+1) 888 812 1081 – if your transaction is on an Ethereum-based blockchain, here's what you can try:

1. Open Trust Wallet and navigate to the transaction details
2. Select the pending transaction you want to accelerate or cancel
3. Tap on Speed Up to increase the gas fee for a quicker confirmation OR tap Cancel to stop the transaction entirely
4. Confirm the new gas fee or the cancellation request

Trust wallet Support Team (+1) 888 812 1081 – however, we must be transparent: this feature is currently on standby; there is no possibility to speed up or

cancel EVM transactions in the latest version. Trust wallet Support Team (+1) 888 812 1081 – if the in-app cancel option isn't available, don't attempt advanced workarounds like manual nonce replacement unless you're an experienced user – one mistake can cost you dearly.
